LOCATION

The property is situated with access directly from Beckenham High Street via a roadway between retail but visible from the High Street. The property is set on its own self contained site and benefits from rights of way over neighbouring roads giving access and egress onto the site. Beckenham is an affluent South London suburb with the High Street providing many well known retailers together with the usual banks and other services. The wider catchment comprises densely populated but good quality housing stock. The property is well positioned to gain access further into South London via the South Circular Road with Croydon and Bromley town centres being within easy reach.

DESCRIPTION

The property comprises warehouse and office space arranged in two principal buildings with a first floor walkway set in a backlands position. The property provides two main ground floor warehouses, additional first floor warehousing accessed via a small goods lift and first floor offices in the secondary building together with external areas providing some parking and loading. The property has most recently been used for electrical goods distribution but would suit a variety of businesses requiring storage, offices and workspace. It should be noted that the premises are available as an entirety or potentially as two individual sections providing additional flexibility. Eaves heights within the ground floor building are between 10'-11' but the space is largely clear span with one building having full vehicular access via a concertina door.
